### PROFILE

Passionate and driven graduate with expertise in HTML, CSS, JavaScript, Java, React, Redux, Node.js and express. Excited to apply my technical skills to dynamic, real-world projects and collaborate with innovative teams. Eager to learn, grow, and contribute to cutting-edge solutions that make an impact.

### INTERNSHIPS

**ME(A)RN Stack Development Intern** – [Luminar Technolab]

**[21th August 2024] – Present**

- Assisting in the development of full-stack web applications using MongoDB, Express, React, Angular, and Node.js.
- Collaborating with senior developers to troubleshoot, optimize and enhance existing projects.
- Gaining hands-on experience in front-end and back-end development, working on both client-side and server-side programming.

### EDUCATION

**Bachelor of Computer Application**

Malappuram, Kerala

St. Mary's College, Puthanangadi

Graduation Date : April 2024

CGPA : 68.92%

**Class 12th**

GHSS Irimbiliyam, Valiyakunnu

Valanchery, Kerala

Percentage : 85%

**Class 10th**

GHSS Irimbiliyam, Valiyakunnu

Valanchery, Kerala

Percentage : 91%

### SKILLS

**Technical Skills :**

HTML, CSS, JavaScript, React, Java, Redux,  
Express and Node.js

**Soft Skills:**

Strong communication, Team collaboration  
, Problem-solving, Time management, Adaptability.

### PROJECTS

**QuickFix – Fast and reliable service booking app** (in development).

QuickFix is a service booking app built with React, Node.js, Express, and MongoDB. It features three roles: Admin, User, and Worker. Admins manage profiles, users can search and book available workers (e.g., plumbers, electricians) who are online, and workers can toggle their availability and accept bookings. The app focuses on smooth communication and efficient service booking.

## **Team Track - Employee Management**

TeamTrack is a React-based employee management system that uses JSON Server as a backend to store and manage employee data. It supports CRUD operations (Create, Read, Update, Delete), allowing users to efficiently add, update, view, and delete employee records

## **Weather Checking Website**

Built a dynamic weather-checking website using React, leveraging API fetch for real-time weather data retrieval. Designed a modular and responsive interface with React components, ensuring optimal performance and user experience across devices.

## **Fogo – Pizza Shop UI Design**

Developed the front-end UI for a Pizza shop platform using HTML, CSS, and JavaScript. Designed a visually appealing and responsive interface, ensuring seamless user interaction across devices. The platform highlights various product features, creating an engaging and user-friendly shopping experience.

## **INTREST**

Gaming | Swimming | Football
